# QHSE POLICY

## QUALITY, HEALTH, SAFETY & ENVIRONMENTAL

At APT, Quality, Health, Safety and Environment (QHSE) are central to our operations. We are committed to delivering excellence while safeguarding our employees, clients, the public and the environment.

### Quality -

APT is committed to delivering services that meet or exceed client expectations, comply with international standards, and continually improve through innovation and feedback.

### Health -

APT is committed to protecting the health of its employees by providing regular training, awareness & resources. We maintain safe practices in compliance with international standards and foster a culture where every individual is responsible for their own health & well-being.

### Safety -

Safety is our highest priority. We prevent workplace accidents through training, awareness, and compliance with OSHA standards, while fostering a culture where every employee takes responsibility for safety.

### Environment -

We are committed to minimizing environmental impact through responsible resource use and waste management. We strictly comply with all environmental regulations and promote sustainable practices to protect the environment for future generations.

# SERVICES

- Oil & Gas Field Services
- Heavy Equipment Rental
- Vehicle Rental
- Civil & Earth Works
- Mechanical Works
- Facility Management Services
- Material Supply

The background of the slide features a collage of industrial images. On the left, a worker in a blue uniform with 'APT' on the back and a white hard hat is seen from behind, looking at large red industrial machinery. On the right, two workers in blue uniforms and white hard hats are inspecting a large white vertical tank; one worker is pointing at a valve while the other holds a clipboard. The entire slide has a teal background with a pattern of faint white icons representing various industrial tools and equipment.

# OIL & GAS FIELD SERVICES

Installation and Maintenance is the practice of protecting or restoring equipment in order to maintain function and integrity. As a critical component of an asset integrity management (AIM) program, maintenance engineers and technicians dedicate time to developing and implementing maintenance strategies that optimize production and use cost-effective maintenance techniques in the oil and gas field sectors. **Typical maintenance techniques include cleaning, inspection, lubrication, testing, replacing, and/or repairing components.** APT has proven track record in various Turnaround & Maintenance Projects in Refineries.

# HEAVY EQUIPMENT RENTAL

APT Rentals delivers immediate, efficient and cost-effective solutions for all your project requirements. We offer a wide range of fully operational, ready-to-use equipment and vehicles, ensuring reliability from the start. Our rental specialists assist clients in selecting the right solutions while providing flexible rental options and exceptional customer service.

We offer heavy equipment rentals for a wide variety of jobs. We have a vast inventory available for rent consisting of:

**Excavator**

**Grader**

**Wheel Loader**

**Bobcat**

**Compactor**

**Water Tanker**

**Rig Moving Equipments**

**Diesel Tanker**

**Low-bed Trailer**

**Flat-bed Truck**

**Boom Truck**

**Workshop Half Lorry**

**Crane**

PROVIDE HEAVY EQUIPMENT RENTALS TO  
INTERNATIONAL CONSTRUCTION, DRILLING  
COMPANIES IN KUWAIT, WITH FLEXIBLE SHORT,  
MEDIUM AND LONG-TERM SOLUTIONS

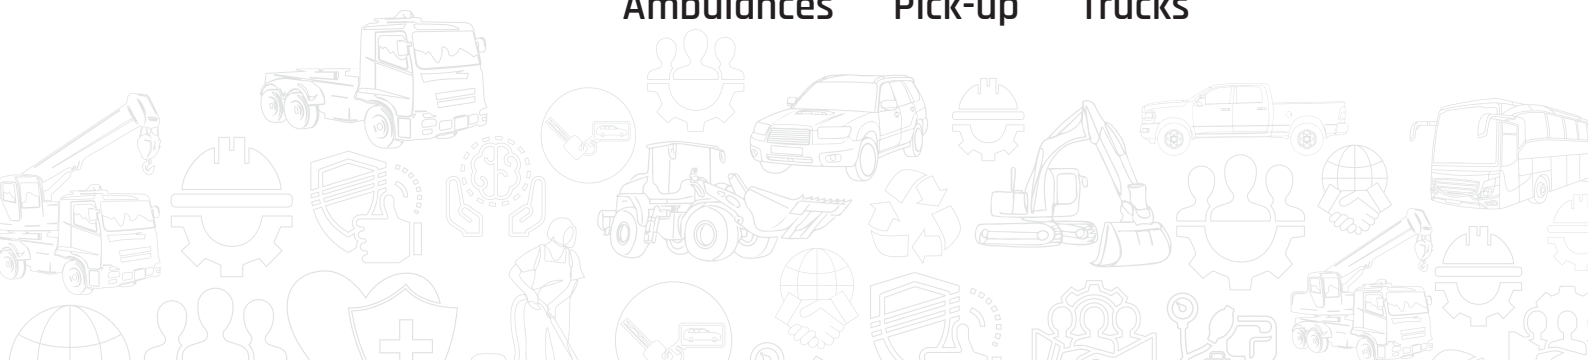

**All our vehicles are fully compliant with KOC standards, equipped with access passes, GPS tracking systems, Speed Monitoring Devices (SMD) & operated by certified drivers holding Defensive Driving Certificates (DDC).**

Buses	Cars	SUV
Ambulances	Pick-up	Trucks

# CIVIL & EARTH WORKS

We undertake Civil Contracts and Subcontracts for a wide range of **earthworks, including excavations, earthmoving, road construction, foundation works, land preparation & site development for oil rigs also.** Our expertise extends to **demolition, leveling, clearing and disposal, trenching, cabling, deep excavations for pipelines, backfilling** with govt.-approved materials and site grading.

With safety as our top priority, we deliver innovative and sustainable solutions to complex infrastructural challenges. Guided by our core values, we uphold the highest standards in our dealings with clients, partners and colleagues. Our strength lies in our highly qualified team of project managers, engineers and supervisors, whose technical expertise & leadership ensure smooth operations, strict adherence to quality standards and the successful completion of projects within agreed timelines.

# MECHANICAL WORKS

APT provides a comprehensive range of mechanical engineering and construction services designed to support diverse projects across the **energy, oil & gas, industrial and infrastructure sectors**. With a team of skilled engineers, technicians and craftsmen, we deliver safe, efficient & reliable solutions that meet international standards and client-specific requirements.

**Fabrication & Installation** - Structural steel works, pipe spooling, skids and mechanical assemblies.

**Piping Systems** - Design, fabrication and erection of carbon steel, stainless steel & alloy piping systems for onshore and offshore facilities.

**Welding & Testing** – Certified welding works supported by NDT, hydro-testing and quality assurance.

**Static & Rotating Equipment** – Installation, alignment and maintenance of pumps, compressors, turbines, heat exchangers and pressure vessels.

**Plant Maintenance & Shutdowns** - Planned preventive maintenance, emergency repairs & turnaround support to maximize asset uptime.

**Erection Works** - Heavy equipment erection, rigging & commissioning support.

## Mechanical Support for EPC Projects –

Providing engineering & construction expertise to contractors under EPC frameworks.

# FACILITY MANAGEMENT SERVICES

APT facilities management solutions include a complete range of maintenance, safety and security, cleaning, integrated management and business support services.

Our core objective is to effectively and efficiently manage facilities day-to-day operational needs while enabling our customers to solely focus on their core business. Our approach, expertise and know-how deliver effective deployment of integrated facilities management services based on latest technologies and proven procedures to render.
